SUBJECT INDEX VOLUME 59

Abbreviated Injury Scale, Trauma Diagnosis codes, survival predictions, 563
Abdominal compartment syndrome
damage-control celiotomies, complications after, 1365
secondary, burn patients, escharotomy effects, 368
Abdominal trauma
accidental, *versus* inflicted, children, 1203
anterior stab wound, fascial ultrasound for evaluation, 843
blunt hepatic injury, abdominal insufflation effects, porcine, 1305
mechanism to justify evaluation, motor vehicle crashes, 1057
open abdomen, pregnancy management with, case report, 1052
pediatric, solid organ injury, nonoperative management failure in, 1309
penetrating, CT in nonoperative management, 1155
skeletal muscle lacerations, suturing, 209
Abductor hallucis muscle, versatility, conjoined or distally-based flap, case report, 1007
Abruptio placentae, in utero traumatic subarachnoid hemorrhage and, motor vehicle crash, case report, 236
Abscess, heroin use, trauma care, S57
Acidosis, diagnosis of, mortality predictions, ICU, letter, 506
Acute respiratory distress syndrome (ARDS), adult
acute blood transfusion role in, severe trauma patients, 717
after injury, decreasing incidence and mortality, 1107
airway pressure release ventilation, in trauma ICU, 71
blood transfusions and, 19
leukocyte deformability, blood rheology and, sepsis or trauma, 1425
prone positioning and oxygenation, post-traumatic lung injury, 333
Acute stress disorder (ASD)
incidence of and risk factors, children with injuries, 946
quality-of-life outcomes and, injured adolescents, 1126
Adenovirus vector, CTLA41g introduced by, survival of xenogeneic skin grafts on rat burn wounds, 1209
Adolescent trauma
acute stress disorder impact, quality of life outcomes and, 1126
car-surfing, Southwest Ohio, 734
Advanced Trauma Life Support course, performance of digital rectal exam, omission of, 1314
Adverse drug events, abnormal laboratory values as antecedents to, 1457
Aging, effects on isolated brain injury, recovery at one year after, 1298
Airbags. *see also* Child restraint injuries; Motor Vehicle crashes
improperly restrained children, lethal combination, 729
spinal cord injury, motor vehicle crashes, 117, 787(erratum)
Albumin, hespan, effects on hemorrhagic shock and sepsis, rodent hepatocytes, 583
Alcohol, low blood level, cytokine production and, aged mice after thermal injury, 984
Alcohol abuse
barriers to intervention, in trauma centers, S104, S124
brief motivational interventions, trauma centers, S21
challenge of change, S3
conference keynote speaker Jeffrey Runge, S43
developing plan for interventions, draft recommendations, S155
feasibility of alcohol screening and brief intervention, trauma center, S119, S124
hospitalized trauma patients, S1
impact on trauma care, S49, S50, S53, S67
intervention and screening, medical settings, S80, S94
intervention in trauma centers
new insights, S10
opportunity and challenge, S18
stages of change, S27
obstacles to screening and interventions, trauma centers, S137, S146
public policy, S61
screening, brief intervention, and referral, implementation in trauma centers, S112, S124
screening and intervention in trauma centers, confidentiality and legal concerns, 1250
screening trauma patients for
Uniform Accident and Sickness Policy Provision Law effects, 624
use of a single question, 619
substance abuse and, inpatient counseling in youth with major trauma, 464
Alcohol Use Disorders Identification Test (AUDIT), screening trauma patients with, 619
Alveolar leukocytes, response to endotoxin, smoke inhalation effects, 64
American Association for the Surgery of Trauma
abstracts, 516, 1538
meeting program, 508
Analgesics, morphine, nebulized *versus* patient-controlled, acute thoracic pain, 382
Anesthesia, local, digital nerve blocks, study of unrecognized trauma, 770
Angioembolization
blunt hepatic injuries, nonoperative management, complications with, 1066
blunt juxtahepatic venous injuries, operative strategy and multidisciplinary approach, 940
elective surgery and, management of renal angiomyolipoma rupture, case report, 737
limitations of, blunt splenic injury, 926
Angiography
blunt splenic injury, 926
evolving role of interventional radiology in trauma care, 102
multidetector CT, for blunt cerebrovascular injury, 691
pelvic, for recurrent traumatic pelvic arterial hemorrhage, 1168
thrombosis, traumatic hepatic artery pseudoaneurysm, pediatric, case report, 1025
Angiomyolipoma, renal, traumatic rupture, angioembolization and elective surgery for, case report, 737
Ankle injuries, low-energy, supination-type malleolar and midfoot, fast, reliable test after, 1268
Anticoagulation, reversal
clinical practices among trauma surgeons, 374
warfarin, patients with intracranial hemorrhage, 1131
Antimicrobials, bacterial resistance to, heroin use and, trauma care, S57
Aorta, bullet embolization in, gunshot wound to the left ventricle, case report, 1012
Aortic hemorrhage, hemostatic efficacy of dressings in, swine model, 25
Aortic rupture
ascending, CABG for chronic disease, case report, 1492
blunt, after horse kick, case report, 616
interventional radiology in, 102
Aortic transection, blunt trauma, percutaneous endovascular repair, 1062
Apnea, low-flow transtracheal rescue insufflation, after profound desaturation, 344
Apoptosis
ileal, mesenteric ischemia/reperfusion, 1092
in impaired wound healing, after radiation, rat skin, 682
L-Arginine, improvement in wound healing, after trauma hemorrhage, 162
Arginine vasopressin, short-term survival and, pulmonary contusion, swine, 876
Arterial reconstruction, use of superficial femoral vein, case report, 747
Arterial trauma, blunt, endovascular techniques for treatment, case report, 1224
Arteriography, necessity of, knee dislocations, 672
Arthroplasty, revision total hip, treatment of hip infection, 665
Artificial respiration. *see also* Resuscitation

  inadequate flexion-extension roentgenograms, goniometry for prediction of, 395
  injury, image of trauma, 1272
  injury with neurological deficit, need for mechanical ventilation, 912
  ligamentous injury, early work-up for, 897
  pediatric injuries, forward-facing child restraints and, case report, 1504
cGMP, role in signal transduction, mesenteric postcapillary fluid leak and, 302
Charge capture, in mobile trauma database, 1042
Checkmark sign, retroperitoneal hematoma, spread through interfascial planes, diagnostic CT, 595
Chest pain, intramural hematoma, acute phase, image of trauma, 1032
Chest trauma
  clicking, clunking chest, case report, 1235
  controlled hemorrhage with, early vasopressin effects on mortality, swine, 876
  mandatory chest x-ray necessity in, protocols, 324
  prone positioning and oxygenation, post-traumatic lung injury, 333
  reversal of anticoagulation, clinical practices among trauma surgeons, 374
  water seal of, timing of radiography after, 92
Chest tube
  radiography after, timing, 92
  thoracostomy, prehospital, complication risks, 96, 788(reprint)
Chest wall defects, traumatic, elegant procedure for repair, case report, 1507
Child abuse, abdominal injuries, inflicted *versus* accidental, 1203
Child restraint system
  airbag deployment, improper restraint and, 729
  forward-facing, cervical spine injuries and, case report, 1504
Chitosan dressing
  comparison for hemorrhage control, extremities, swine, 865
  hemostatic efficacy of, in aortic hemorrhage model, swine, 25
Circumferential compression, stabilization with, pelvic ring injuries, 659
Clicking chest, case report and review of literature, 1235
Closed treatment, mandibular condyle fractures, function impairment and pain after, 422
Coagulopathy
  Hextend and lactated Ringer's, after severe liver injury, swine, 589
  hypothermia and, liver injuries, recombinant FVIIA effects, pigs, 155
  recombinant factor VIIa for, bleeding control in trauma patients, 8
  systemic changes, pulmonary artery catheters, swine, 853
  uncontrolled hemorrhage, tranexamic acid effects on rebleeding, porcine model, 976
Cocaine
  impact on care at trauma center, S57, S67
  public policy on substance abuse, S61
Coccygectomy, for coccygodynia, 1414
Coccygodynia, coccygectomy for, 1414
Collagen, synthesis, L-arginine effects, after trauma hemorrhage, 162
Colon trauma, suture lines in, effects of blood supply, 358
Combat casualty care, Fitts Lecture, 2004, 990
Compartment syndrome
  cocaine use, trauma care, S57

fasciotomy wounds, shoelace technique for gradual closure of, 1515
intracranial pressure, relations to cerebral blood flow, 1521
Complications
abdominal wound complications, timing and method of closure effects, 1365
chest tube thoracostomy, prehospital, 96, 788(reprint)
nonoperative management, high-grade blunt hepatic injuries, 1066
pelvic circumferential compression, with soft-tissue injuries, case report, 468
rectus abdominus myonecrosis, in rectus sheath hematoma, case report, 473
respiratory, thoracic spinal cord injury, 1400
reversal of anticoagulation, clinical practices among trauma surgeons, 374
Computed tomography (CT)
abdominal gunshot wounds, nonoperative management, 1155
blunt head injuries, decision instrument for guidance, 954
blunt splenic injury, survey of EAST member practices, 836
cervical spine, clearance, in blunt trauma, 179
checkmark sign, retroperitoneal hematoma spread through interfascial planes, 595
follow-up, blunt hepatic injury, 1175
helical, diagnosis of ligamentous injury of cervical spine, 897
intramural hematoma, acute phase, image of trauma, 1032
isolated jejunal hematoma, isolated, 782
Mount Fuji Sign, after trauma, 254
occult pneumothorax, after major trauma, 917
versus plain radiography, after thoracic/lumbar spine fracture, 1410
spiral, for blunt cerebrovascular injury, 691
uterine myoma, traumatic avulsion, image of trauma, 1532
Conservative treatment, renal trauma, 491
Contrast media

Radiation injury
difficult hip infection, modified vastus lateralis flap in treatment of, 665
impaired wound healing, rat skin, 682
Radiography
after placement of chest tube, timing, 92
versus CT, after thoracic/lumbar spine fracture, 1410
flash x-ray, cavitation in cadaver thighs, 1463
inefficiency of, cervical spine evaluation after blunt trauma, 1121
mandatory chest x-ray, in injured patients, protocols, 324
Radius
comminuted diaphyseal fractures, bone graft effects on nonunion rate, 436
distal, instability in fractures, letter, 1535
Reaming, intramedullary nailing, effects on pulmonary function, sheep, 647
Recombinant factor VII
activated, trauma-associated hemorrhage with crush injury, case report, 742
low-dose, in traumatic hemorrhage, 150
Recombinant factor VIIa
futility of administration, determinants of, 609
liver injuries, hypothermic, coagulopathic pigs, 155
randomized, controlled trials, bleeding control in trauma patients, 8
Recovery, musculoskeletal trauma, men and women, 213
Rectal examination, in secondary trauma survey, omission of, 1314
Rectus sheath hematoma, unrecognized rectus abdominus myonecrosis and, case report, 473
Renal failure, trauma patients with elevated serum creatinine, intravenous contrast media, 1162
Renal trauma
blunt, endovascular stent, case report, 243
conservative management, 491
Respiratory complications
esophageal dysfunction, cervical spinal cord injury, 905
thoracic spinal cord injury, mortality risk, 1400
Respiratory failure, inhalation of a fire extinguisher, image of trauma, 502
Resuscitation
energy substrate-supplemented, effect on brain monocarboxylate transporter levels and gliosis, rat, 1191
HBOC, traumatic brain injury, swine, 553
hemorrhagic shock, uncrossmatched type-O red cells, 1445
Hextend and lactated Ringer's, severe liver injury liver injury, swine, 589
hypertonic saline, after mesenteric ischemia/reperfusion, 1092
hypertonic saline and pentoxifylline in, 257
inosine infusion, prevention of mortality in endotoxic shock, 1432
lactated Ringer's solution, for hemorrhagic shock, endothelial dysfunction and, 284
occult pneumothorax, after major trauma, 917
optimizing with TEE, acutely injured patients, 36
prolonged low-volume with HBOC-201, survival model of controlled hemorrhage, 273
retroperitoneal packing, unstable pelvic fractures, 1510
small-volume with hypertonic saline, intraluminal inhibition of pancreatic protease and, 266
termination of efforts, guidelines, letter, 1273
trauma patients, transfusions and alternatives, 19
uncontrolled hemorrhage, tranexamic acid effects on rebleeding, porcine model, 976
Retinal detachment
fireworks-related injuries, 109
intraocular foreign body, pars plana vitrectomy for, 1216
Retroperitoneal hematoma, traumatic, spread through interfascial planes, 595
Retroperitoneal packing, pelvic fractures, 1510
Right atrium, avulsion of superior vena cava, blunt trauma, case report, 1486
Roentgenography, flexion-extension, goniometry for prediction of inadequacy, cervical spine, 395
Rural trauma, *versus* rural, Scottish outcome study, 632

Safety
lawn mower-related injuries, children, 724
uncrossmatched type-O red cells, resuscitation for hemorrhagic shock, 1445
Scaphoid
occult fractures, high-spatial-resolution sonography, 677
unstable fractures, percutaneous screw fixation, 184
Scapula, fracture
clicking, clunking chest, case report, 1235
lower mortality in, 1477
Screening
alcohol abuse
barriers to interventions in trauma centers, S104, S124
confidentiality and legal concerns, in trauma centers, 1250
alcohol and drug abuse, medical settings, S80, S94
feasibility of implementation, trauma care settings, S119, S124
Seat belts, spinal cord injury, motor vehicle crashes, 117, 787(erratum)
Sepsis
anti-inflammatory activity in, phosphodiesterase effects, 575
hemorrhagic shock and, albumin and hespan effects, rodent hepatocytes, 583
hypertonic saline and pentoxifylline, resuscitation strategy, 257
inosine infusion, prevention of mortality in, 1432
Kupffer cell ablation, hepatic microcirculation after, letter, 784
leukocyte deformability, whole blood rheology and, 1425
peak IL-6 blood levels, cytokine-related genotypic differences, 1180
postsplenectomy, overwhelming, revaccination and, case report, 1482
superficial thrombophlebitis, case report, 750
Seroprevalence, hepatitis B and C and HIV, Canadian trauma population, 105, 787(erratum)
Shock
hypertonic saline and pentoxifylline, resuscitation strategy, 257
hypothermia as marker of, mortality in trauma patients and, 1081
prolonged HBOC-201 resuscitation, survival model of controlled hemorrhage, 273
role of TEE, optimizing resuscitation, acutely injured patients, 36
trauma-hemorrhage-induced, small volume resuscitation with hypertonic saline, 266
trauma research, multidisciplinary exchange, letters, 1535, 1536
Shotgun wound. *see* Wounds and injuries
Shoulder injury, skydiving, letter, 1033
Signal transduction, regulation of mesenteric postcapillary fluid leak, cAMP and cGMP role in, 302
Skin grafts, xenogeneic, CTLA4Ig to prolong, rat burn wounds, 1209
Skydiving, shoulder injuries in, letter, 1033
Smoke inhalation, leukocyte response to endotoxin and, lung, 64
Smoking, acute inhalation, effects on spinal fusion, rabbits, 401
Sodium-potassium-ATPase, plasma, during septic shock, inosine infusion effects, 1432
Soft-tissue injury
pelvic circumferential compression in, case report, 468
penetrating, foreign body retrieval, minimally invasive, case report, 754
Soft-tissue necrosis, heroin use, trauma care, S57
Soft x-ray irradiation, impaired wound healing after, rat skin, 682
Solid organ injury
bedside organ assessment, ultrasound in, 1356
pediatric, failure of nonoperative management, 1309
Sonography. *see* Ultrasonography
Spinal cord injury. *see also* Cervical spine
after gunshot wounds, asymptomatic patients, letter, 1033
blunt trauma, inefficiency of plain radiography for, 1121
cervical spine assessment, distracting injury, 1396
direct health care costs after, 441
esophageal dysfunction in, respiratory complication, 905

with neurological deficit, need for mechanical ventilation, 912
thoracic, respiratory complications and mortality risk, 1400
thoracic/lumbar, CT *versus* plain radiography, 1410
velocity and energy dissipation effects, motor vehicle crashes, 117, 787(erratum)
Spinal fusion, acute cigarette smoke inhalation and, experimental study in rabbits, 401
Spleen
blunt trauma
angioembolization in treatment of, 926
survey of EAST member practices, 836
injury, splenorrhaphy, hemostat wrap, case report, 1003
spontaneous rupture, misdiagnosis of minor trauma, case reports, 1228, 1231
Splenectomy
normal response to, differentiation from infection, white blood cell and platelet counts in, 1076
overwhelming sepsis after, case report, 1482
Splenorrhaphy, hemostat wrap as new technique in, case report, 1003
Stab wound. *see* Wounds and injuries
Stages of Change (SOC) model, alcohol intervention, in trauma centers, S27
Standard Operating Procedures (SOPs), clinical care of severely injured patients, 762, 764
Stent, endovascular, blunt renal arterial injury, case report, 243
Stent-graft, percutaneous repair, blunt thoracic aortic transection, 1062
Store-operated calcium channel, inhibition, neutrophil function and lung injury, 56
Street drugs. *see* Substance abuse
Subarachnoid hemorrhage, in utero, abruptio placentae and, motor vehicle crash in pregnancy, case report, 236
Substance abuse
alcohol and, inpatient counseling in youth with major trauma, 464
barriers to intervention, in trauma centers, S104, S124
brief interventions for, trauma patients, S88, S94
changing the battle plan, S33
conference keynote speaker Jeffrey Runge, S43
developing plan for interventions, draft recommendations, S155
impact on trauma care, S49, S50, S53, S67
intervention and screening, medical settings, S80, S94
intervention in trauma centers
new insights, S10
opportunity and challenge, S18
interventions for trauma patients, S76, S77, S94
intravenous, superficial femoral vein for arterial reconstruction, case report, 747
public policy, S61
screening, brief intervention
and referral, implementation in trauma centers, S112, S124
and referral for treatment, trauma centers, S37
street drugs, impact on trauma care, S57, S67
Superficial femoral vein, trauma, for arterial reconstruction, case report, 747
Superior vena cava, avulsion, blunt trauma, case report, 1486
Superoxide, production, sepsis and trauma patients, 1425
Surgery
blunt juxtahepatic venous injuries, operative strategy and multidisciplinary approach, 940
bone grafting, comminuted diaphyseal fractures of radius and ulna, nonunion rate and, 436
elective, angioembolization a nd, for renal angiomyolipoma rupture, case report, 737
emergency, cost-benefit analysis of adding to trauma service, 390
endovascular stent, blunt renal arterial injury, case report, 243
esophageal perforation, in a sword swallower, case report, 233
gunshot wound, left ventricle, bullet embolization in, case report, 1012
minimally invasive, foreign body retrieval after soft-tissue injury, case report, 754
operative treatment of coronoid process fractures, functional outcome, 416
percutaneous plating, stabilization of proximal tibial fractures, 429
persistent sciatic artery, penetrating trauma to, case report, 246
screw fixation, unstable scaphoid fractures, 184
skeletal muscle lacerations, epimysium and perimysium in suturing, 209
Surgical education
medical students' knowledge of trauma, seven countries, 43
trauma/critical care, making it more attractive, 1247
Surgical history, there is more to Ringer than lactate, 778
Survival
hypothermia and, after traumatic hemorrhagic shock in pigs, 291
risk ratios, predictions using, in trauma, 563
Systemic inflammatory response syndrome (SIRS)
peak IL-6 blood levels, cytokine-related genotypic differences, 1180
PMNLs, intranuclear NF-κB and glucocorticoid receptor in, 308

TBI. *see* Brain injury, traumatic
Technetium-99m, scan, frostbite, treatment with tissue plasminogen activator, 1350
Terrorism
bombing incidents, implications for preparedness and medical response, 1436
explosions, impact on two hospitals, 195
Thermal injury
combat casualty care, Fitts Lecture, 2004, 990
effects of tight glycemic control, children, 1148
esophageal Doppler monitor use in, letter, 504, 505
insulin and metformin, comparison of peripheral metabolic effects, 316
